

## Parental survey results

April 2024

We would like to say a huge thankyou to those parents who took the time to respond to our recent survey about parental engagement. We wanted to find out the percentage of parents who engage with our school community activities and what we can do further to improve our offer. We has responses from 101 parents.

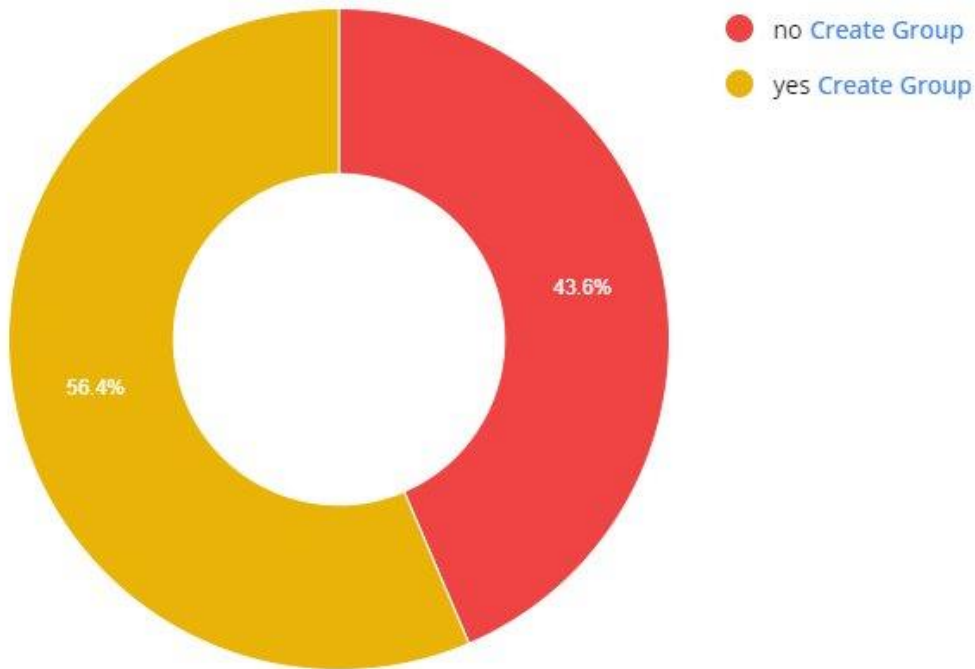

The responses were as follows;

I came or a member of my family came to my child's curriculum/ inspire afternoon

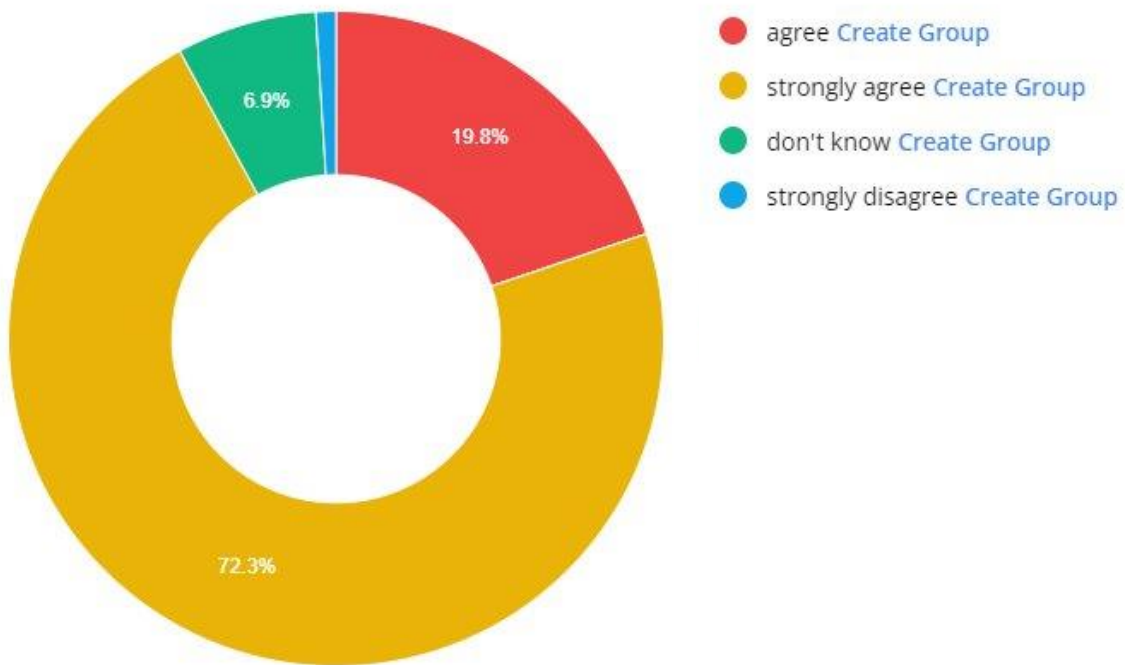

I came or a member of my family came to my child's forest school session

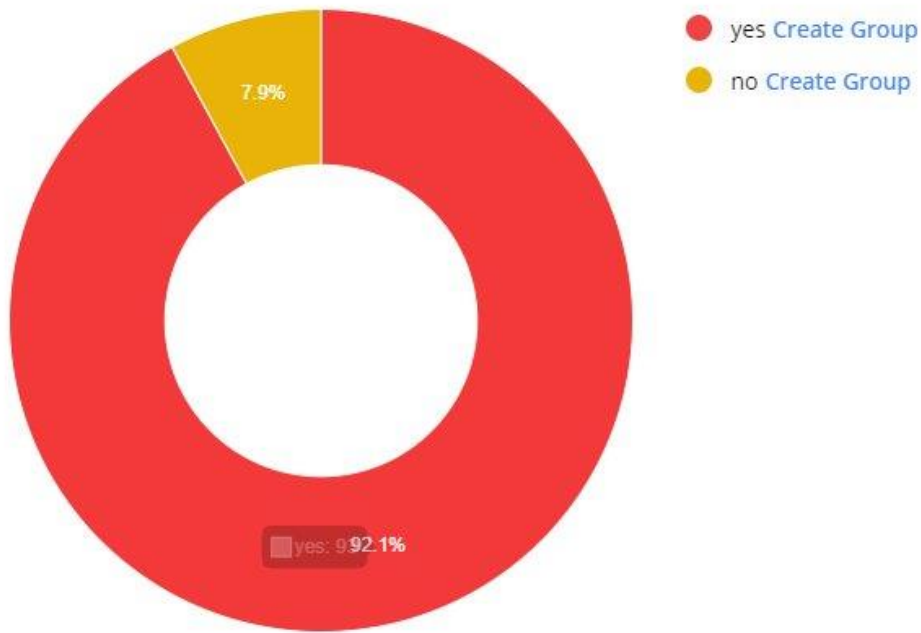

I enjoy coming into school to work alongside my child in these sessions

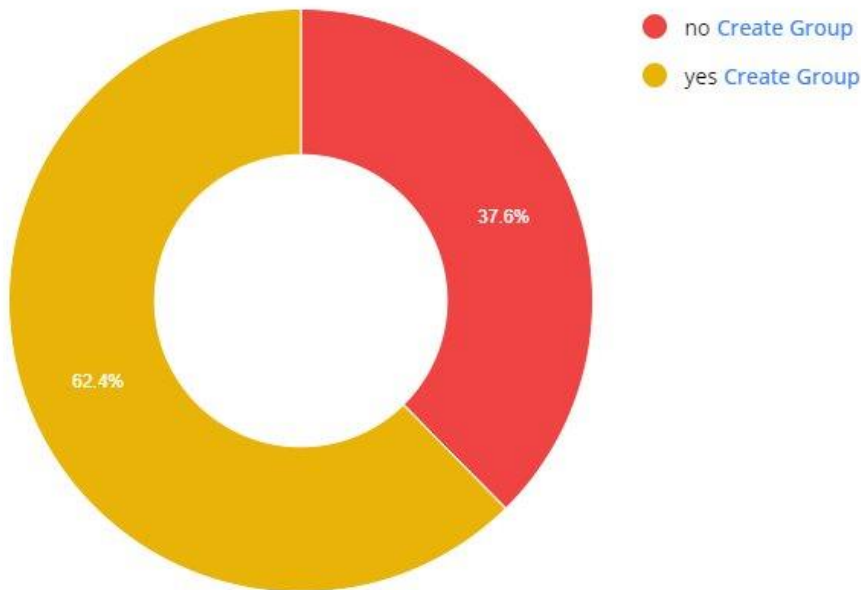

I came or a member of my family came to have Christmas dinner in school

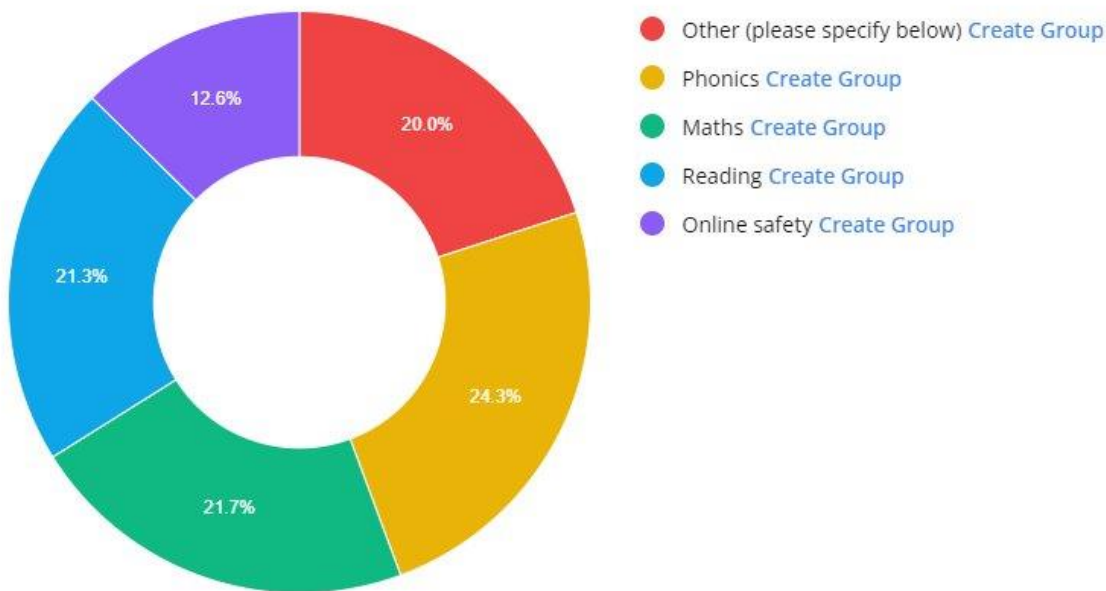

I would be interested in some workshops at school

If you answered yes please indicate below which you would be interested in (please tick all that apply)

We asked what school does well to engage parents and carers. Some of the responses included;

- The variety of events
- Good communication
- Plenty of notice
- Giving lots of opportunities for parents to be involved
- Creating strong links
- Forming good bonds with parents
- Including parents and welcoming them into school

We then asked parents to provide us with ideas of how we can make this even better. We had fantastic responses with lots of great ideas. These will be discussed in a leadership team later this term. One of our school governors will be joining the leadership team at this meeting. After that meeting we will let parents know what we are planning in response to the feedback and the ideas provided.
