

Mental Health and Wellbeing Parent Voice Survey Results

Date of survey – July 2021

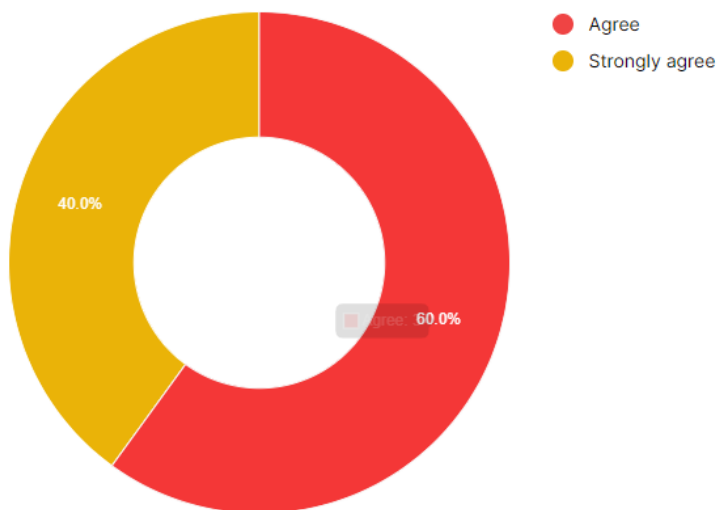

The document below shows the responses that we have had to the recent survey sent out to parents of children who had received support from Jane, our inclusion mentor during the summer term.

The survey was to help us understand the effectiveness of the support provided and strengthen our parent/ carer and school partnership.

I understand why the inclusion mentor was supporting my child in school.

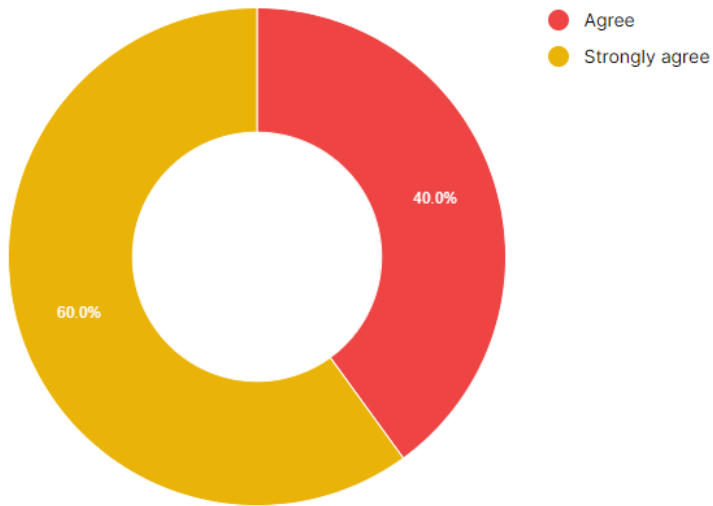

The support given has had a positive impact on child's mental health and wellbeing.

I feel that I have received sufficient information and communication about the support given to my child in this area.

Any other comments?

I'm happy with XXXX's progress
XXX has really enjoyed taking part in the nurture group. The comments made by the facilitator were a beautiful reflection of our daughter.
Thank you
