dependency, Street Child Children will develop their reading skills and responses through the study of this book.  Maths  Maths  In this unit, children will learn how to estimate, measure and classify angles in a range of 2d shapes. Position and Direction Position and Symmetry Sills. Decimals In this unit, children will taught how to identify and plot coordinates. They will also develop their translation, reflection and symmetry Sills. Decimals In this unit, children learn how to add, subtract, multiply and divide decimals. Biomes and Vegetation Belts Children will explore the layers of the rainforest, locate the world's deserts and discover the animals of the savannah.  Science  Animals and Humans Children will learn the difference in life cycles of an insect and a mammal. They will also study the development of humans into old age.  PE  Yoga The children develop their yoga skills and create their own flow that they can teach to their peers. Athletics Children will develop running, jumping and throwing skills through individual and team events. Swimming Children will develop running, jumping and throwing skills through individual and team events. Swimming Children will attend a block of swimming lessons with the goal of confidently swimming 25m.  Computing  In this unit, children will use Purple Mash to learn how to create 3d models using technology.  Be A Super Digital Citizen Children will reflect on the characteristics that make someone an upstanding digital citizen, recognise what cyberbullying is and show ways to be an upstander.  Art  Set Design Children will enjoy making models and maquettes as a way to explore set design, linking 3d making to literature, music, film and animation.  In this unit, children will explore the question – Does		screen use for children. Then will then create an
