

# GTA V

## THE VIEW FROM OTHER PARENTS

“My 12 year old nephew asked for this game because "everyone else" at school was playing it. I bought the game. Reviewed it. And guess what I found? Alcohol, sex, drugs, etc! I returned the game. Definitely not for kids!”

“Since when is it okay to imagine to murder innocent people? Or to let your kids see nude strippers?”

“One of the most corrupting games I have ever seen. Why would even an adult want to play a game where you have to live as a criminal? This game also has nudity which makes it even worse. Drugs like weed and alcohol can be used in the game.”

“Seriously... DON'T LET KIDS PLAY THIS. seriously it's so inappropriate. Theres a lot of sexual content and nudity. Not to mention the violence.”
